Windimurra Vanadium Limited

Notes to the financial statements

For the half year ended 31 December 2014

1. Reporting Entity

Windimurra Vanadium Limited is a company domiciled in Australia. The interim financial report of the Company is as at and for the six months ended 31 December 2014.

The annual financial report of the Company as at and for the year ended 30 June 2014 is available upon request from the Company's registered office at Level 24, 44 St Georges Terrace Perth WA 6000.

Statement of compliance

The interim financial report is a general purpose financial report which has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the Corporations Act 2001. Selected explanatory notes are included to explain events and transactions that are significant to gain an understanding of the changes in the financial position and performance of the Company since the last annual financial report as at and for the year ended 30 June 2014.

The interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the annual financial report of the Company as at and for the year ended 30 June 2014.

The interim financial report is approved by the Board of Directors on 16th March 2015.

Estimates

Preparing interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended 30 June 2014.

Other financial assets

Due to the exercise of the instrument during the period, its fair value has been determined by reference to the consideration paid to acquire the instrument.

Significant accounting policies

The accounting policies applied by the Company in this interim financial report are the same as those applied by the Company in its annual financial report as at and for the year ended 30 June 2014.

A number of new or amended standards became applicable for the current reporting period. However, the Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards. There may be some changes to the disclosure in the 30 June 2015 annual report as a consequence of these amendments.

There were no standards issued since 30 June 2014 that have been applied by the company. The 30 June 2014 annual report disclosed that the Company anticipated no material impacts (amounts recognised and/or disclosed) arising from initial application of those standards issued but not yet applied at that date, and this remains the assessment as at 31 December 2014.

Segment reporting

The Company operated in one industry, being mining and mining exploration, and is in the one geographical segment, Australia.

2. Going Concern

These interim financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. The Company incurred an operating profit of \$44,290 for the period ended 31 December 2014 (31 December 2013: \$115,099) and has net assets of \$1,457,793 (30 June 2014: net assets of \$1,410,940). The Company had a net cash outflow from operating activities amounting to \$889,539 (31 December 2013: \$143,349) and a cash balance as at 31 December 2014 of \$397,567 (30 June 2014: \$1,994,589).

The ability of the Company to continue as a going concern is principally dependent upon the Company's ability to raise funds under a prospectus capital raising as required for the Company to acquire Srinel Holdings Limited and for working capital purposes.

2. Going Concern (continued)

The directors of the Company are confident that the entity will be able to continue its operations as a going concern, however, the above conditions indicate the existence of a material uncertainty which may cast significant doubt about the entity's ability to continue as a going concern and therefore, the entity may be unable to realise its assets and discharge its liabilities in the normal course of business and at the amounts stated in the financial report.

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Windimurra Vanadium Limited, which comprises the statement of financial position as at 31 December 2014, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the company's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Windimurra Vanadium Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Windimurra Vanadium Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Windimurra Vanadium Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the company's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Emphasis of matter

Without modifying our conclusion, we draw attention to Note 2 in the half-year financial report, which indicates that the ability of the company to continue as a going concern is dependent upon the future successful equity raising to be conducted under a prospectus. This condition, along with other matters as set out in Note 2, indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern and therefore, the company may be unable to realise its assets and discharge its liabilities in the normal course of business.
